PROJECTS *(Github: https://github.com/rakhisharma)*

KeyDetector *http://rakhisharma.me/keyDetector/*

It's a Konami code detector. While on project page press any button & see the result in console browser. Unicorn.js is added to make things interesting. Press Enter to see unicorn effect.

DrumKit *http://rakhisharma.me/drumkit/*

It maps the keys A through L on the keyboard to a corresponding drum sound effect, & shows a visual key as feedback for the user.

FunWidCanvas *https://rakhisharma.me/FunCanvas/*

Drawing app using the canvas HTML5 element and JS. Draw anything using cursor.
