I am an Open source contributor and software engineer working at [The Data Team](#) where I mostly write Javascript and deal with lots of data & web.

Open Source Work:

Mozilla Internship 2017: Worked on Servo browser Engine to make it support responsive images with Servo team at Mozilla. Full details of project is present https://github.com/servo/servo/issues/11416

Mozilla Internship 2016: Worked on Firefox browser with Fxteam at Mozilla. All my accepted patches, reported bugs and other work in Firefox can be found here: https://bugzilla.mozilla.org/user_profile?login=rakhish1994%40gmail.com

Comfortable working with open source organization.

Comfortable working in Agile teams, working remotely and independently.
